

## “Misclicks”

I have noticed that some players have asked for the Director when they mistakenly make a wrong bid or play a wrong card.

In the on line tournament structure that we have put in place directors are unable to “undo” the “mistaken” bid. This ensures that time limits are adhered to as it is almost impossible to rectify problems in a timely fashion and thus the tournament continues in a strict time frame. However, in the Account section of BBO under Settings you can make some changes.

In **settings** scroll down to PLAYING:

Click on/ highlight (turn to green) CONFIRM BIDS and CONFIRM CARDS.

With the CONFIRM BIDS now highlighted in the game you are now asked if your bid is correct by needing to click an OK button before your bid is registered.

With the CONFIRM CARD option you need to click the card twice before it is selected.

This can slow up the process and play of the hand but it should be manageable.

Enjoy your game
